DETAILED ACTION

Specification

The specification is objected to because of the following informalities: Line 10 on page 1 is grammatically incorrect. Note the recitation "a securely connected to the outer post (63)". In lines 15 to 16 on page 1, the reference character "(612)" has been inconsistently assigned. Note the slots and the passage. In lines 16 to 17 on page 1, "the passage" has been assigned inconsistent reference characters. Note "(612)" and "(611)". Line 2 on page 2 is grammatically incorrect. Note the recitation "for user to upward driving the". Line 13 on page 3 is grammatically incorrect. Note the recitation "on a chair and a second opposite to the first end". Line 23 on page 3 to line 1 on page 4 is grammatically incorrect. Note the recitation "when the outer post partially receiving the inner post". In lines 19, 22 and 23 on page 6, the reference character "(34)" has been inconsistently assigned.

Drawings

The drawings are objected to as failing to provide cross-sectional cut lines in Figure 1 although each of Figures 3-6 are described and shown as being cross-sections of Figure 1. Proposed drawing corrections or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In lines 5 to 6 of claim 1, the recitation "the first slot" appears to include a spelling error, thereby rendering the claim vague. Lines 14 to 15 in claim 1 are grammatically vague. Note the recitation "when the outer post partially receiving the inner post". Line 21 of claim 1 is grammatically vague. Note the recitation "out of the outer for user". Line 3 of claim 2 is grammatically incorrect. Note the recitation "two rails downward extending". In line 5 of claim 2, it is unclear which of the previously set forth "rails" is represented by the recitation "engaged to the rail". Line 6 of claim 3 is grammatically incorrect. Note the recitation "each stoppers of the locking". Similarly note line 6 of claim 6. Line 8 of claim 3 is vague. It is unclear what is being set forth by the recitation "the position purpose". Similarly note line 8 of claim 6. Lines 1 to 2 of claim 15 are grammatically incorrect. Note the recitation "two pushers respectively mounted in inner post". Similarly note claim 16. Claims 4, 5, and 7-14 are indefinite since each depends from an indefinite claim.

Allowable Subject Matter

Art Unit: 3636

Claims 2-16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
